

cleanfix

One machine, two jobs

Cleanfix Toro CAS

Fast and flexible cleaning!

The agile and extremely robust Cleanfix Toro CAS compact cleaning machine is suitable for maintenance and intermediate cleaning. It is your reliable partner on smooth floor surfaces as well as on challenging surfaces such as kitchen tiles with water displacement joints. Thanks to the optional additional weight, it can also handle intensive cleaning. Be inspired by the immaculate cleanliness - at the touch of a button!

Clean. Cleaner. Cleanfix.

Powerful cleaning

The new Cleanfix Toro CAS scrubber dryer has been specially developed for professional cleaning requirements where hygiene and cleanliness have top priority. It is therefore ideal for bakeries and businesses in the processing industry, for example, as well as for any maintenance cleaning on different floors. A single machine can be used for maintenance, intermediate and intensive cleaning (depending on the degree and type of soiling). The Cleanfix Toro CAS therefore ensures spotless floors that meet the strict requirements for continuous cleanliness and hygiene in these industries.

Ergonomic and robust design

The Cleanfix Toro CAS combines state-of-the-art technology with a robust design to make your cleaning tasks even more effective. The lightweight and manoeuvrable design reduces physical strain enormously and makes even long cleaning jobs comfortable. Thanks to its high-quality materials, the Cleanfix Toro CAS is ideal for tough, daily use. This guarantees a long service life and minimal maintenance costs.

Environmentally friendly and efficient

The Cleanfix Toro CAS is not only powerful, but also environmentally friendly. With optimized water and detergent consumption, it helps to reduce operating costs and environmental impact.

Technical data

Materials	Aluminium and polyamide
Dimensions L×W×H	38 cm×51 cm×112 cm
Working width	43 cm
Theoretical output	approx. 1'600 – 1'800 m² per hour
Fresh water tank	5 l
Dirty water tank	10 l
Weight without/with batterie	16,5 kg / 18,5 kg 22,5 kg including batteries and water
Batteries	Li-ion battery 18 V / 10 Ah per battery (2 pieces)
Charger	External, 110 V – 240 V; 50 Hz / 60 Hz
Running time	Up to 70 minutes (depending on floor conditions and cleaning program)
Charging time	90 min for quick use
Brush rotation	160 rpm 180 rpm in Rocket-Mode
Brush pressure	23 kg – 33 kg
Brush diameter	23 cm
Brush motor	2×200 watts (brushless)
Traction	Semi-automatic
Additional weights	2×5 kg (optionally available for even more cleaning pressure)
Water protection	IP65 (Completely waterproof for maximum durability)
Sound pressure	63 dB – 66 dB in Rocket-Mode
Suction motor	200 – 300 Watt (brushless)
Rocket-Mode	More power at the touch of a button

Flexibility and mobility

The Cleanfix Toro CAS has floating brushes. They enable comfortable propulsion and high manoeuvrability. The water guard prevents water from entering the motor even when the handle is in an extremely lowered position. The Cleanfix Toro CAS can be easily manoeuvred around obstacles and used in busy environments. This makes it ideal for use in confined and hard-to-reach areas.

Powerful cleaning

The two state-of-the-art motors of the Cleanfix Toro CAS are very efficient and powerful. Their brushless design maximizes service life and minimizes maintenance requirements. They work quietly and ensure comfortable operation as well as impressive cleaning performance. This guarantees thorough cleaning and effortlessly removes even stubborn dirt.

Simple operation

The intuitive user interface of the Cleanfix Toro CAS makes it quick and easy to operate. Thanks to clearly arranged operating elements, users can easily control and adjust all functions.

Outstanding battery life

Equipped with powerful rechargeable batteries from the cross-manufacturer and cross-product CAS system, the Cleanfix Toro CAS offers a long operating time. This enables large areas to be cleaned without frequent recharging. This saves time and increases productivity.

Easy maintenance

The Cleanfix Toro CAS is designed so that all important components are easily accessible. This facilitates maintenance and the replacement of parts such as the scrubbing suction lip. This minimizes costs and downtime. Another advantage is the complete water protection. This simplifies cleaning and guarantees impeccable hygiene. This effortlessly prevents dirt deposits, especially in hygienically sensitive areas.

Innovation

Cleanfix has been a leader in the development and manufacture of cleaning machines for almost 50 years. Our products have proven themselves over many years and are a reliable and long-term investment. With our cleaning machines, our customers invest in the highest quality, sustainability and durability.

Sustainability

Cleanfix is committed to environmentally friendly cleaning technologies and sustainable business practices. In production, the use of recycled materials (recyclate) is given the highest priority. These are not only purchased, but also produced in-house in order to further improve the environmental balance.

Customer service

Cleanfix offers outstanding services. After a product phase-out, spare parts continue to be available for at least ten years. This not only ensures the long-term usability of the devices, but also reduces the need for new purchases and therefore the consumption of resources.

Cordless Alliance System CAS

The Cordless Alliance System (CAS) makes appliances independent from the wall socket. Customers benefit from problem-free compatibility for machines, battery packs and chargers of different manufacturers. Now this permits a number of professional applications also with cordless tools – from standard to special tasks.
